...start working smart

Embrace the modern work culture, in which a team work environment must not restrict the process of collaboration. This thought is what prompted the creation of the **'Smart'**. It is all about effectiveness, speed and creativity. It blends perfectly in any room, creating a space of your calling. Need to conduct a meeting? And perhaps a quick brainstorming session or even a lecture, nothing works better than the **'Smart'**.

Understated brilliance

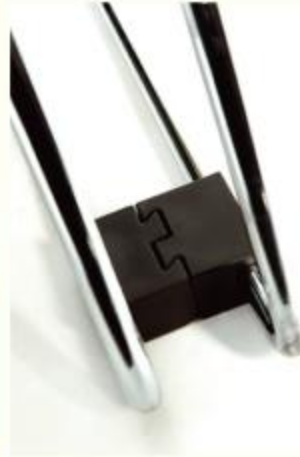

"Smart" is primarily designed as a highly functional piece of furniture. But do not overlook its understated aesthetic quality. The design is simple and adds a clean aesthetic touch to any environment, whether it be your conference room or a lecture hall. With a wide range of bright colours, it will complement any room in your establishment. It's just a matter of personal choice. By understanding and giving the utmost priority to the value of simplicity, "Smart" is designed to empower freedom in the performance of work. It is built for the dynamic work environment where change is constant and reconfiguration is highly sought after. With the "Smart", setting up a meeting or lecture room would be never be more simple.

For the extra comfort, optional armrests are readily available for those longer meetings.

The armrests can be added or removed at any time. It's as simple as 1-2-3!

Get connected! The special linking base system allows you to set up meeting spaces small or large with amazing ease.

Also available with a black epoxy finish for both the stackable and swivel variations.

Link chairs together and create a working team. Any setup is possible with 'Smart'

THE SMART CONNECTION

With the 'Smart', it's as easy to get people together as it is to allow them their personal space. Plus, with the stackable feature, the usual space constraints and limitations would be things of the past.
