Creating Impressions

As the saying goes,  
you never get a second chance to make a  
first impression

## A Comforting Welcome

Solo is the ideal synthesis of flexibility and creativity for optimum style and comfort.

In today's competitive world of business, making an impression is about setting an image that represents all that the company stands for.

That is why we created the **Solo** – a bold design that greets everyone who walks through your front door while leaving a lasting impression on them.

The **Solo** allows individual reception rooms to be individual. Each is a communicative, spatial structure that exudes the flexibility to make efficient use of space. At the same time, achieving new levels of comfort.

Each structure can be easily linked. You can choose to assemble two pieces together for a funky two-seater. Or four to create a sofa statement piece. The **Solo** is yours to arrange and rearrange. To create your own world of business – constantly, instantly.

Made from solid metal, it provides excellent stability and durability, at the same time the freedom for you to explore the many possibilities with it.

It's easy to add character to your guest arena with a choice of bold colours.

## The result?

A refreshing, comfortable welcome each time to all who come through your door.
