# GENERATION o f f i c e s e a t i n g

**W**hen it comes to detail, nothing is spared for our GENERATION series. A whole new GENERATION in the concept of the new experience and dimension in today's modern working environment. It gives a feeling of well being and greater enjoyment at the workplace.

Therefore, it proves that our GENERATION series blends naturally with modern office design, which integrates both living and a working environment.

Just to touch and feel our GENERATION series and above all, the backrest is an experience by itself.

GENERATION is created specifically for a whole new working experience.

A whole new dimension in the art and comfort of seating posture that allows total synchronism via a large angle of opening (up to 26 degree) for the seat and backrest.

With the Height adjustable armrest, you can adjust the position to suit each individual user's needs.

Adjustable backrest ensures maximum comfort in consideration of your weight, the upper body and personal seating preferences.

# GENERATION o f f i c e s e a t i n g

With its new corporate design approach, **GENERATION'S** exquisite collection of fine leathers that comes with a myriad of tasteful colours blends into a harmonious office environment.
